

Please do not jeopardize the Victor Valley reception of Air1 by allowing LPFM stations to take priority over regional FM translators. Air1 provides programming on the FM band no other station recieved in this valley provide. Speciallized music stations exist for many kinds of music, and Air1 fulfills a definite need for Christian music. Because of the translators, this station is available both in the Victor Valley and in the Los Angeles basin, where we commute regularly. Please keep the LPFM stations off the frequencies used by Air1 so we can continue to enjoy the benefits of this dedicated station.
